Single Malt Whisky / Single Malt – Blend

Als Single Malt werden Whiskys bezeichnet, die zwei besondere Bedingungen erfüllen: Sie stammen zum ersten aus einer einzigen Brennerei, sind also kein Verschnitt (Blend) aus mehreren Whiskysorten (daher single = einzeln). Zum zweiten wird als Getreide ausschließlich gemälzte Gerste verwendet (deswegen malt = Malz). Ein Single Malt Whisky kann durchaus eine Mischung aus mehreren Fässern einer Destillerie sein, beispielsweise um einen möglichst gleichbleibenden Geschmack und Geruch zu erzielen.

Im Gegensatz zu einem Blend, der sich in Geruch und Geschmack jahrelang reproduzieren lässt, weisen Single Malts einen eigenen individuellen Charakter auf. Ein Blend ist eine Mischung von verschiedenen Whiskys. Als Grundlage für einen Blend wird in der Regel Grain Whisky verwendet und zum Teil bis zu 50 andere Whiskys hinzugemischt. Auf diese Weise erhält der Masterblender einen ständig gleichbleibenden Geschmack und gleiche Qualität.

Rye Whisky

Ist ein Whisky, der aus einer roggenhaltigen Maische gebrannt wird. Dieser wird vor allem in Nordamerika hergestellt. In den Vereinigten Staaten von Amerika ist gesetzlich ein Roggenanteil von 51 % in der zugrunde liegenden Getreidemischung vorgeschrieben, um einen Whisky als Rye Whiskey zu bezeichnen. Jeder kanadische Whisky darf aus historischen Gründen als Rye Whisky bezeichnet werden – unabhängig davon, ob überhaupt Roggen in seiner Produktion eine Rolle spielte.

Grain Whisky

Grain Whisky bedeutet wörtlich übersetzt „Getreide-Whisky“ – was etwas verwirrend ist. Denn schließlich besteht jeder Whisky aus Getreide. Während ein Malt Whisky aber ausschließlich aus Gerstenmalz gebrannt wird, dürfen für den Grain verschiedenste Getreidesorten wie Weizen, Mais oder Roggen verwendet werden, die zumeist auch ungemälzt zum Einsatz kommen. Das macht die Herstellung flexibler und preiswerter: Man nimmt, was günstig einzukaufen ist und verzichtet auf den langwierigen Vorgang des Mälzens.

Blackadder

Raw Cask - Robin Tucek, der Gründer von Blackadder, definiert seine Raw Cask-Abfüllungen über die Reste des Fasses, die sich in den Flaschen befinden. Diese sogenannten Raw Cask-Abfüllungen sind selten. Zumeist werden schottische, vereinzelt irische und noch seltener andere internationale Whiskies abgefüllt.
